## EXPERIENCE

### CHAINTECH SOLUTIONS | NODE.JS DEVELOPMENT INTERN

May 2022 – Aug 2022 | Ahmadabad, India

- Contributed to the development of blockchain-based solutions using Node.js, Web3.js, and Express.js.
- Developed backend services to integrate blockchain functionality with decentralized applications (dApps) and smart contracts.
- Utilized MongoDB for efficient data storage and retrieval, managing both on-chain and off-chain data.
- Implemented security measures such as data encryption and blockchain consensus protocols to protect sensitive information and prevent vulnerabilities.
- Participated in troubleshooting and debugging blockchain-related issues to ensure optimal system performance.

## PROJECTS

### AUTO-INSURE | PEER TO PEER BLOCKCHAIN-BASED CAR INSURANCE

Jan 2023 – Present | Saskatoon, SK

- Developed a P2P DeFi **auto-insure** platform leveraging blockchain for transparent claims.
- Built backend to manage pool data, user interactions, and claims securely.
- Designed front-end with ReactJS for claims submission and voting.
- Used AWS DynamoDB for scalable storage of user data and claims.
- Employed Docker for containerization, ensuring efficient deployment.
- Integrated Ether.js for Ethereum blockchain communication and smart contract processing.

### PAWPALS | COMMUNITY-DRIVEN ANIMAL ADOPTION AND TREAT PLATFORM

Jan 2024 – May 2023 | Waterloo, ON

- Lead the development of **PawPals**, a blockchain-based platform simplifying animal adoption and fostering community-driven support.
- Enabled users to browse adoptable animal profiles, complete adoptions, and donate treats or funds.
- Integrated backend with MongoDB to manage adoption records, user profiles, and transactions.
- Implemented Stripe payment gateway for secure donation processing.

### THE AGARIES | EMPOWERING TRADITIONAL SALT FARMERS

Jan 2024 – In Progress | Waterloo, ON

- Lead the development of **The Agaries**, a platform to support traditional salt farmers by raising funds for tools and sustainable growth.
- Designed a scalable backend using Node.js and MongoDB to manage farmer profiles and donation records.
- Integrated Stripe for secure payments, enabling supporters to donate funds directly to farmers.
- Developed a user-friendly interface with NextJS for easy navigation and interaction with the platform.
